Location: Prague, Czech Republic	General Contractor: Swietelsky stavebni s.r.o.	Architect: Nedvěď Architekti

The Gotthardská Residence in Prague, Czechia is a four-story residential building located in an exclusive area near the Prague Castle, offering a harmonious blend of historical preservation and modern urban living. Comprising thirteen apartment units, the residence was nominated for the 2024 Czech Architecture Award.

In addition, it received the BIG SEE Architecture Award 2025 in the Residential – Housing category, which honors outstanding architectural achievements. For the waterproofing of the underground structure, Xypex Admix C-1000 NF was utilized, ensuring long-lasting protection and durability.
