

Basement Private House 2

ABOUT THIS PROJECT:		
Market Segment: General Construction	Location: Kyiv region, Ukraine	Products Used: Xypex Concentrate Xypex Patch'n Plug

After a thorough inspection, water seepage was identified beneath the tiles and plaster in the basement. To address this issue, the existing finishes were dismantled, and the surfaces were thoroughly cleaned. Xypex waterproofing materials—Patch'n'Plug and Xypex Concentrate—were then applied to ensure reliable and long-term protection of the space against moisture.
