

## Minera Panama – Cobre Panama

*Donoso, Provincia de Colon, Panama*

Owner  
**FIRST QUANTUM MINERALS (80%); KOREA PANAMA MINING CORP (20%)**

Engineer  
**LYCOPODIUM**

Contractor  
**FIRST QUANTUM MINERALS**

Products  
**CONCENTRATE, ADMIX**

Project Type  
**INDUSTRIAL STRUCTURES**

Minera Panama, also known as Cobre Panama, is a 136 km<sup>2</sup> open-pit copper mine located 120 km west of Panama City, 20 km from the Caribbean Coast. The mine's known resources are more than 3 billion tonnes of copper. Xypex [Concentrate](#) was used to waterproof and protect the conveyor tunnels for the mine and Xypex [Admix](#) provided chemical protection to various parts of the processing plant.
