

## Heathrow Airport – Terminal 5

Hounslow, United Kingdom

Contractor  
**LAING O'ROURKES**

Engineer  
**CONSORTIUM**

Products  
**CONCENTRATE, PATCH'N  
PLUG, ADMIX C-1000 NF**

Project Type  
**SERVICE TUNNEL**

A combination of Xypex products was used to repair and waterproof the main service tunnel connecting Terminal 5 at Heathrow Airport with other terminals. Repairs with Xypex [Concentrate](#) and [Patch'n Plug](#) were so successful that Xypex Admix was specified on all remaining cast-in-place concrete. Over 5 tonnes of Xypex [Admix C-1000 NF](#) has been used to date on this project.
