

Drahonice Reservoir

ABOUT THIS PROJECT:

Market Segments:
Water Treatment Plants
Water Holding Structures

Location:
Drahonice,
Czech Republic

Products Used:
Xypex Concentrate

The objective of the Drahonice Reservoir project was to effectively seal construction joints within a newly constructed concrete water reservoir. Completed in 1994 in Drahonice, Czech Republic, the project encompassed two reservoirs, each with a capacity of 5000 m³. The project used Xypex Concentrate to address the sealing needs. Applying Xypex products effectively provided a comprehensive seal at construction joints, permanently preventing leaks.
